

Capacitor Plate for Substrate Components

ABSTRACT

A method and apparatus to mount a capacitor plate to a substrate, under a
5 component. One embodiment of the invention involves a method to assemble a
capacitor plate on a substrate. A second embodiment of the invention involves a
method to fabricate a capacitor plate. A third embodiment of the invention involves an
assembled substrate with a capacitor plate on the second side of the assembled
substrate, under an electrical contact area of a component on the first side of the
10 assembled substrate.
